Master Cloud Services Agreement · CyberVault Ltd.

BETWEEN: Aegis Financial Technologies Inc. ('Customer') AND CyberVault Storage Solutions Ltd. ('Vendor')

EFFECTIVE DATE: March 15, 2023

CLAUSE 8. CONFIDENTIALITY AND SECURITY COVENANTS

8.1 Encryption at Rest and in Transit: Vendor covenants and warrants that Customer Data stored on CyberVault cloud volumes is continuously encrypted at rest using AES-256 bit encryption keys managed under FIPS 140-2 Level 3 HSM modules. All web interfaces and API endpoints mandate TLS 1.3 encryption.

8.2 Identity and Access Management: Vendor mandates Multi-Factor Authentication (MFA) utilizing FIDO2 security keys for all operational engineers and database administrators accessing production clusters.

8.3 Annual Audit Deliverable: Vendor covenants to supply Customer with an annual SOC 2 Type II report within forty-five (45) days of the conclusion of each examination cycle.
