# Deloitte Independent Auditor Report (SOC 2 Type II)

SERVICE ORGANIZATION: CyberVault Storage Solutions Ltd.

AUDIT PERIOD: October 1, 2023 to March 31, 2024

OPINION: Unqualified Clean Opinion

## Control CC6.6 (Encryption at Rest and Transit):

Testing Performed: Auditor inspected AWS KMS key policies and TLS configurations. Sampled 50 production storage volumes; 100% verified encrypted at rest with AES-256. Sampled 30 API gateway endpoints; 100% enforced TLS 1.2 or TLS 1.3 with high-strength cipher suites. No deviations noted.

## Control CC6.1 (Logical Access and Authentication):

Testing Performed: Sampled 45 administrative staff accounts across DevOps. 100% of sampled administrative accounts enforced mandatory hardware-based MFA (FIDO2). No deviations noted.
